

# Conductor Web

## See and Manage your Teleconference!

This helpful interface provides a way to manage your call from any computer, tablet or smart phone with Internet access.

### Use Conductor Web to:

- ◆ See each line connected to your call
- ◆ Use the teleconference bridge to dial and join additional participants (feature available upon request)
- ◆ Mute a participant's line if it's causing background noise
- ◆ Start and stop recording your call free of charge with instant delivery by email
- ◆ Disconnect a participant's line if their participation is no longer required
- ◆ Call reports delivered instantly by email.

The interface also provides access to other convenient features such as the logs of past calls made on the account, and access to modify the settings on how participants enter or exit your conference call (silently, with tones or name & tones) and more!

**Conductor Web is available free of charge with all Chorus Call teleconference accounts.**
