

Passcode Conferencing

An Efficient & Affordable Way of Doing Business

Whether you're pulling together your team for an internal planning session by phone or hosting a full meeting of the board of directors, you're likely using teleconferencing as an important tool to facilitate your work. Chorus Call offers a variety of types of accounts to address various needs for people to come together on a conference call.

- ◆ Standard accounts with **host and guest codes**
- ◆ Accounts that prompt the host to **code the call** to assist with your internal record keeping
- ◆ **Passcode Plus PIN** accounts for the tightest security
- ◆ **Auto-dial Passcode** that enable a host to initiate an automatic dial-out to a pre-determined group of people when an **emergency meeting** must be convened

All account holders enjoy access to an online interface, which provides the latest in security and convenience features.

[Contact us](#) or Call us at **+41 (0) 91 612 43 00** to get further information.

CONVENIENCE FEATURES:

- ◆ Operator dial-out service available to join participants to their call at a designated time.
- ◆ Impromptu operator support by **dialing *0**
- ◆ Manage your call through a complimentary online interface: mute or disconnect lines; dial out and join a caller who is travelling upon request
- ◆ View your call records online
- ◆ Adjust the way callers join or leave your calls to suite the type of call you're hosting

SECURITY FEATURES:

- ◆ See your call on screen and all of the lines active in the call
- ◆ Disconnect or place a caller on hold during a confidential discussion
- ◆ Lock your call to prevent additional parties or an operator from joining
- ◆ Use PINs to control access and label the lines of callers to highly secure calls

FAIR & TRANSPARENT BILLING PRACTICES:

- ◆ No account set-up fees
- ◆ No reservations required
- ◆ No minimum charge per call
- ◆ Line charges will apply only for the actual number of minutes used by each caller
- ◆ No charge for paper invoices or online account access

24 HOUR ASSISTANCE:

Chorus Call Switzerland teleconferencing bridge is monitored around the clock during the business week by trained conference specialists. Callers simply **press *0** on their touchtone phone to signal an operator for assistance.

On weekends, a 24-hour help line provides access to a trained conference specialist.
