Many companies offer transcription services, but few provide the level of accuracy that Chorus Call delivers on a daily basis. Chorus Call enlists the services of carefully vetted professional transcriptionists with extensive experience in financial reporting. No voice recognition software is used.

Chorus Call transcriptions are typically provided as a Microsoft Word and PDF document with a clear consistent format.

Chorus Call uses a fair formula to calculate transcript charges, based on how quickly the turnaround is required and the number of minutes of audio to be transcribed.

Standard turnaround times are one or two business days.

Urgent delivery is available upon request.
