

# Webcasting

## Reach More for Less!

Sharp designs, cutting edge options, clear audio quality – we do our best to provide impressive platforms for an **unlimited audience** to receive your message.

Chorus Call streams at one of the highest rates in the industry which results in more natural audio without the metallic sound you will hear in some other webcasts.

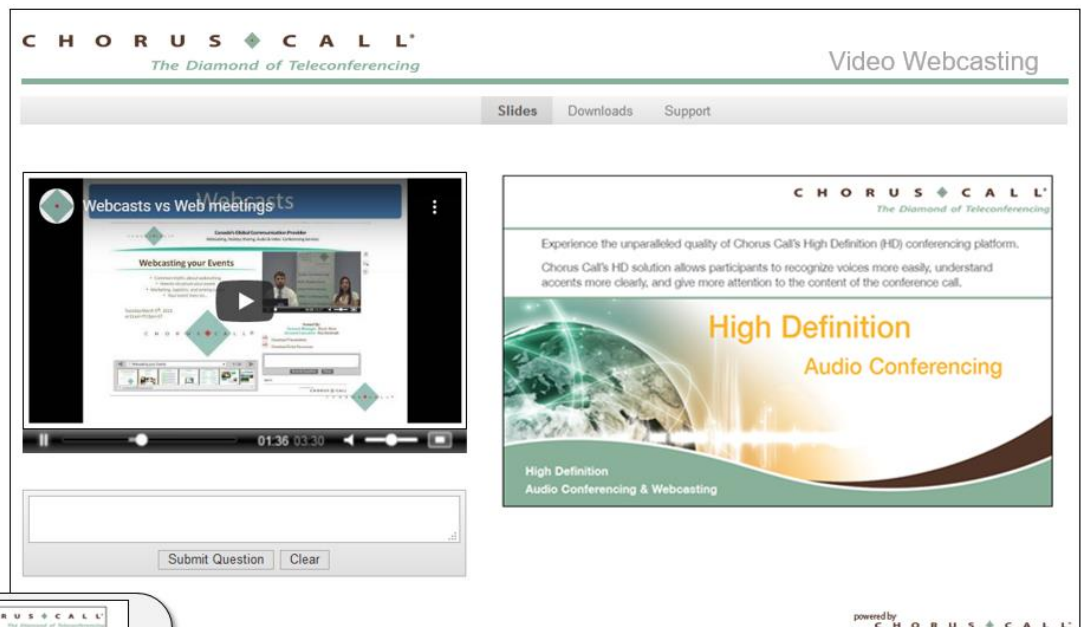

**PERFECT FOR:**  
**Quarterly Calls, Annual General Meetings or Investor Days, Town halls, Product Introductions, major Announcements and more...!**

Stream your event live as it happens and/or have it recorded for a play-on-demand archive. Longer events, like Investor Days, can be presented in multiple segments and arranged for ease of access on an attractive landing webpage.

## ♦ MediaFrame™

Chorus Call brings the power of professional webcasting to large and small clients throughout the world. Our feature-rich MediaFrame platform leverages the power of the web to deliver live and on-demand streaming for multimedia presentations. With MediaFrame, we combine your streaming media (video or audio) with a slide presentation or static image, attendee resources, and more into a single browser window. Every MediaFrame is fully customizable.

**Each is unique - built to your needs and specialized for your event.**

## DID YOU KNOW?

MediaFrame audio and video webcasting can be coupled with either synchronized or manual slide control.

## FEATURES

- ◆ Live streaming Events (Audio and Video)
- ◆ Web portal based on HTML 5 and Flash
- ◆ All devices and Web Browsers
- ◆ Respectful of corporate layouts → made to measure for each customer
- ◆ GDPR compliant
- ◆ Security options (IP restriction, domain restriction, password...)
- ◆ Slides presentation static or synchronized
- ◆ Interactive chat
- ◆ Interactive Q&A
- ◆ Download Presentation
- ◆ Synchronized Archives available
- ◆ View previous slides
- ◆ Adjust timing of the slides

## Connecting your next Event

- ◆ **Reaching Your Audience:** No matter the size or scale of your event, MediaFrame offers a perfect way to spread your message to your entire audience, anywhere, anytime.

- ◆ **Complete Customization:** The MediaFrame window can be specially tailored for your event and set to showcase your brand by utilizing your graphics, logo, fonts, and of course, your message.

- ◆ **Secure Attendance:** MediaFrame can add a layer of security to your next event by requiring participants enter a passcode to enter the presentation.

- ◆ **Synchronized Archives:** Make navigating content in archived presentations quick and easy with MediaFrame's synchronized presentation slides. Participants can jump to any point in the presentation and hear the corresponding audio and/or video.

- ◆ **Post Survey:** Present attendees with a custom survey as they exit the MediaFrame to immediately collect thoughts on the meeting or poll attendees.

- ◆ **Multiple Language Support:** All fields and buttons are configurable, enabling MediaFrame to support different languages. Just let us know the languages you require.
